

Risk Management International

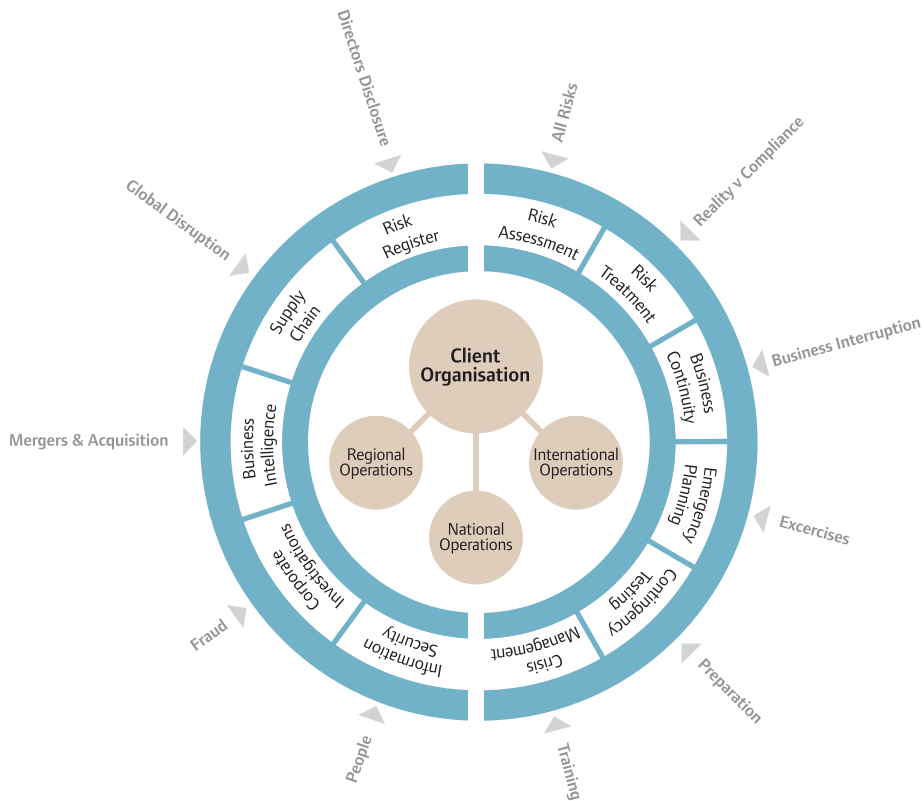

Established in 1993, RMI is now a leading Risk Assessment and Project Management organisation. Our growth is being driven by the needs of people who are increasingly aware of the uncertain world in which we live.

A wholly independent organisation, RMI has offices in Dublin and Bahrain, in addition to affiliate offices in Europe, USA, Asia and Africa.

In times of crisis, uncertainty and rapid change RMI enables you to safeguard reputation, maintain shareholder value and protect corporate assets.

Today RMI is retained to provide a broad range of risk assessment, specialist security, contingency planning and training supports to major international, Government Ministries and utility organisations in the European Union and the Middle East

RMI provides practical, organisational and people focused support that:

- Addresses the concerns of corporate organisations and their personnel
- Provides essential evidence of, and support for, corporate due-diligence
- Enables the Board to demonstrate their attendance to the corporate governance 'duty of care' mandate in practical way

Our approach recognises the close link between corporate responsibility and an individual's needs. RMI thus provides simultaneous, coordinated support at two levels - corporate and individual.

RMI's range of services and expertise provides you with the capability and resources to:

- Prepare for
- Respond to, and
- Manage effectively

a wide range of issues and incidents which impact, or have the potential to impact, your people and your business.

“Are there clouds on the horizon?
Are you prepared for those uninsurable
risks that cripple businesses and
reputation? Our people are experts in
analysing your potential risk and will
develop solutions for the road ahead.”

Cathal O'Neill
Chief Executive Officer
RMI

Peadar Duffy
Chairman
RMI

Our people are largely drawn from senior corporations and Irish and European military specialist units as well as experts from a wide variety of professional backgrounds, both Irish and international. We enjoy the benefits of a breadth and depth of risk management together with a multi-disciplinary team approach to solving problems for clients. Not only can we offer solutions but unlike many consultancies we have the people to implement them for you.

Within the last 24 months we have completed assignments for our clients in the following countries: Saudi Arabia, Bahrain, Qatar, Iraq, Pakistan, Afghanistan, Oman, United Arab Emirates, Cyprus, Jordan, Lebanon, Egypt, Algeria, Sudan, Uganda, Somalia, Chad, Indonesia, Nepal, Kosovo, Albania, Russia, Georgia, Spain, UK, Netherlands, USA, Africa and other EU countries.

Assignments

Typical assignments include:

- Develop risk registers
- Enterprise wide risk assessments
- Physical and environmental security
- Business continuity and disaster recovery
- Personnel security
- Formal project management
- Security management systems
- Risk assurance training
- Information security
- Safety and security training
